**2013 • ESTABLISHMENT**

INDXBATH established from 2013 as a stainless steel faucets manufacturer focus in domestic sanitary ware market. From machining main body to full assembling and packaging. Supplying semi-products to manufacturers that without machining process and finished products to retailers.

**2017 • DEVELOPMENT**

After earning good reputation with excellent quality products, INDXBATH started OEM from cooperation with domestic famous brand such as RIFIO and SAKURA.

**2018 • EXPANDING**

INDXBATH has never stopped development from expanding production scale to designing new styles, also from domestic to worldwide market. With years of experience in manufacturer and marketing, INDXBATH has sold products to EUROPE and Southeast Asia.

**2019 • PROMOTION**

In 2019, we attended Canton Fair, SANITARY WARE and CONSTRUCTION exhibition such as KBC in Shanghai, WORLDBEX in Philippines, Mosbuild in Russia, Aqua-Therm in Ukraine, IDEOBAIN in France. Now our products earn good reputation and recognition widely. Our products have CE and ACS certificates. And our factory has passed ISO9001 audit with monthly production capacity reach to 100,000 sets.

**2020 • TARGET & FORWARD**

In 2020, aim to keep promoting brand recognition of INDXBATH and our new products met with you in exhibition B2/DMA in Poland, KB8 in UK, Canton fair and KBC in Shanghai. We improved our production management and increased monthly production capacity to 150,000 sets.

**2021 • INNOVATION & PROFESSIONALISM**

In 2021, we will further improve the overall production management system and invest more time and energy in research and development. More and more original design products are worth your expectation. We will launch more products suitable for the American market and apply for CuPC certification at the same time.

**WHY TO CHOOSE US**

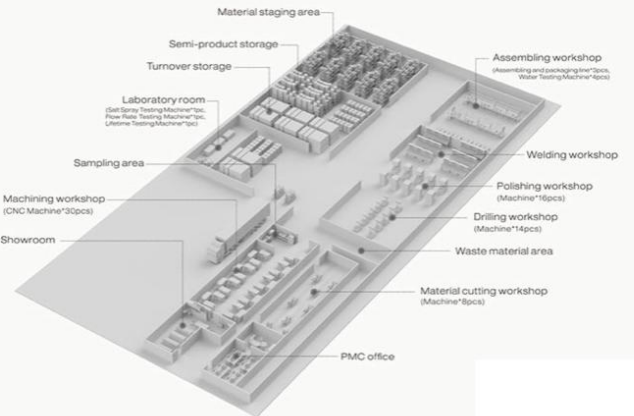

**30**  
CNC machines

**150,000**  
set per month

**ISO 9001**  
quality management system

**R&D**  
services

**CE/ACS/CUPC/NSF**  
certificate

**8 Years**

OF MANUFACTURER STAINLESS STEEL  
FAUCETS EXPERIENCE

Stainless steel is widely used in kitchen equipments which are directly contacting with food. There are two primary reasons why stainless steel is used, the first is that it does not contain any unhealthy substances for the body, the second is that stainless steel is an extremely durable material that is 100% solid all the way through.

Stainless steel is the optimum material on the market. The process for the production of stainless steel is the most advanced on the market, the melting point is over 1700 degrees.

To achieve the highest quality and be sure that you can use the products every day anytime, it's now stainless steel faucet here to stay.

**WHEN. WHERE. WHY USE STAINLESS STEEL?**

**THE FAUCET STRUCTURE CONSISTS OF 100% STAINLESS STEEL**

**SOLID STAINLESS STEEL**  
Means that it is stainless steel straight through the faucet.

- BRUSHED SURFACE**  
This means that you have brushed the existing surface. In contrast to the brushed chrome this will really make us feel that the surface are brushed.
- POLISHED SURFACE**  
This means that you have polished the existing stainless steel.

**UNLEADED MORE CONFIDENCE**  
304 stainless steel materials are free of lead and 100% recyclable to ensure healthy and safe water life.

**NO RUST MORE AT EASE**  
Green producing process with using high quality materials to prevent rust and corrosion.

**BRUSH**  
Classic and economical surface treatment, durable and easy to clean, versatile, suitable for any family use, hot sale.

**ROSE GOLD**  
Romantic and elegant, suitable for light and luxurious decoration style, hot-selling color for hotel apartments.

**GUN-GREY**  
New and special color, simple and unpretentious, widely used in industrial style (loft style) decoration, hot-selling color in 2020.

**BLACK & CHROME**  
Black: one of the classic colors, with personality, can match a variety of decoration styles, hot-selling color for hotel projects.  
Mirror: classic surface treatment, easy to clean, versatile, suitable for any family use, hot-selling color.

**BRUSH GOLD**  
Noble and luxurious, royal style, suitable for light and luxurious decoration style, hot-selling color for hotel apartments.

CLOCK

DESIGN IDEA: TIME IS PRECIOUS, SAME AS WATER.  
 Concept: from time, designing faucet from clock pointer by using casting  
 stainless steel production technology, give flowing line to the design.
